## ABOUT **NITRO-X**

NITRO-X is a multi-location 5 day camp where students entering 6-8th grade in the fall, paint, test, and drive remote controlled cars.

**CAMPS** are led by college and/or high school instructors and mentored by a variety of industry professionals, college and high school students.

**LEARN** about how vehicles work, build your confidence with technical skills, work in teams to develop life and employability skills and gain exposure to industry by going on tours of local businesses and have fun showing off your skills at the end of the week with a race! The families of campers are encouraged to come and cheer them on!
